Several people helped in the development, research, and creation of this hybrid ESL textbook. Several ESL professionals and students have offered numerous suggestions at critical moments in developing this conversation book. Here is a brief, and no means complete, list of kind individuals who have helped improve this book.

“Everybody is a student, and everybody is a teacher” goes the saying. This book reflects that philosophy. The eager students that worked with us during the last decade in various ESL classrooms have expanded our world.

From the adult students at the Santa Monica Adult Education Center, Indianapolis Ivy Tech, and Community Enhancement Services attending classes while working difficult jobs to energetic American Language Institute students in Long Beach, Santa Monica Community College, and UCLA Extension, you have shared your experiences and insights. Thank you.

Naturally, we also owe an exceptional debt to the ambitious USC graduate students at the American Language Institute; we have often shared questions, proverbs, and laughs. Your enthusiasm pushed us to complete this project. Our lively conversations, in and out of the classroom, have exceeded expectations and created small classroom communities where we could take chances and develop our skills. The adoption of this book by the Conversation Club promises to lead to even more compelling conversations.

Please visit our website, www.compellingconversations.com, to offer feedback, suggest additional topics, or contribute questions or quotations for future editions.

We hope this rich collection of questions, proverbs, and quotations will spark many compelling conversations. Let's keep talking, sharing, and learning together!

INTRODUCTION

The art of conversation, once considered the sign of a civilized individual, seems less common today. Yet I treasure the moments of sharing experiences, collecting news, and exchanging ideas. I make a point of knowing my neighbors, allowing casual greetings to become long conversations, and making time to explore in depth the feelings and perceptions of friends and relatives. These natural conversations provide information, encouragement, laughs, and pleasure.

Many people say that they are too busy to have long talks. Other people prefer to watch television, play computer games, or listen to the radio rather than talk to relatives and friends. Sometimes people feel too shy to speak to the people next to them. Many Americans have forgotten how to hold good, deep conversations, or even a friendly chat on the phone. I suspect this lack of real communication lessens their daily joy.

Of course, people learning English as a second, third, or fourth language face even more barriers to a satisfying conversation in English. First, English remains a confusing, difficult, and strange language. It's easy to feel uncomfortable when speaking in this new tongue. What questions do I ask? How can I keep a conversation going? What vocabulary words are needed? How do I show agreement, or disagreement, in a lively, yet polite way? How can I share my experiences in a clear manner? How can I have better, more engaging conversations in English?

Compelling Conversations: Questions and Quotations on Timeless Topics addresses these issues for both native and non-native speakers. The focus is on learning by doing, and making good mistakes. (Good mistakes, by the way, are natural mistakes that help us learn so we can make different and better “good mistakes” next time.)

Each of the 45 chapters includes 30 or more questions, 10 or more targeted vocabulary words, a few proverbs, and 10 or more quotations. Although designed for advanced students, intermediate ESL students will find plenty of material to use and can benefit from exposure to the new words, phrases, and questions.

Each chapter focuses on a promising conversation topic. The questions allow the reader to practice exchanging experiences and ideas in a natural style. You can add questions, skip questions, and move on to related topics. Each chapter begins with easier questions and moves on to questions that are more abstract. Both native and non-native speakers will find the questions allow one to share experiences, exchange insights, and reflect on life.

A NOTE ON TERMS

ESL, short for English as a Second Language, remains the most common term in the United States—especially in public education.

TESOL, the largest professional organization, stands for Teachers of English to Speakers of Other Languages. Many scholars prefer to break down the field into sub-categories such as:

EFL: English as a Foreign Language

ESP: English for Special Purposes

ELT: English Language Teaching, and

ELL: English Language Learners.

We use ESL for both simplicity and convenience since we live in the United States.

The questions are conversation starters, and not scripts to follow. The goal remains to create a real dialogue, increase your understanding of your classmates, and gently push you toward using a richer vocabulary in your English conversations.

Many of these conversation worksheets were originally developed for an Advanced Conversation class that met four hours a week, 15 weeks a semester. The original college course textbook offered little more than vocabulary lists, cost too much, and avoided any topic that might cause any controversy. Several lessons talked about the weather, colors, etc. So I dropped the book, and created conversation worksheets with 30 related questions on practical topics for adult students. I didn't come in with a set point of view; I wanted to find out what people had experienced and their reflections on their lives, current events, and the bigger questions about our changing world. Why should we just talk about the weather and become bored when we could explore our lives, times, passions, and challenges?

Many students would contribute proverbs during our discussions since proverbs, sayings, and idioms can be useful in daily life. Often similar ideas, like “the sky is always blue somewhere”, can be found across cultures. Proverbs can point out some universal aspects of the human experience—in 21st century America, 19th century England, 17th century Paris, 4th century China, or 1st century Rome. Proverbs may often contradict each other, yet the trick is to use the right proverb at the right time in the right situation. Sometimes it's good to know, and even hold, two opposite ideas. “Where you stand, depends on where you sit.” Therefore, each chapter includes a proverb section.

This collection of proverbs and quotations also includes many insights from religious leaders and philosophers that go back even more than 2,000 years such as Buddha, Confucius, Aristotle, and the Biblical prophets. These quotations remind us that some conversations have spanned centuries and cultures. The selected quotations present a wide range of ideas, beliefs, and perspectives. Some quotations might make you laugh, some might make you sigh, and a few might even annoy you. Share your genuine feelings and reasons. Join the conversation. Free speech remains a rare and precious right.

Including classic quotations also helps preserve the insights and comments of well-known and significant cultural figures. This habit helps us escape the too-common delusion that the world began when we were born and provides a larger perspective. Sometimes knowing the speaker and historical era invites another way of looking at our modern lives.

Your English may not be perfect yet, but daily practice does lead to significant progress. Compelling Conversations gives you the tools and phrases to talk more and listen better to friends and strangers in English.

Finally, I hope you enjoy creating many compelling conversations!

GETTING STARTED

Proverbs and quotations appear frequently throughout this text. Reading the ideas of other people and other cultures helps you look at many ways of thinking and introduces you to some famous people.

Also, throughout these lessons, you will be asked to work with others. You will be asking questions about their experiences, and you will be answering questions which they ask you. In this way, you will be practicing English, learning about other cultures, and practicing ways to make conversation pleasant and interesting. Our goal is to create compelling conversations.

ACTIVITY ONE

Divide into groups of four. In conversation, it is often helpful to show other people that we understand what they are trying to communicate. A smile, a nod of the head, and eye contact are encouraging to others and invite them to continue. Frowning, shaking one’s head no, or looking away while others are speaking will discourage others from trying.

In this class, we want to encourage others. In your groups, practice smiling at others and encouraging them. Take turns telling why you want to learn more English. Where do you speak English now? Where would you like to speak English more? Why?

ACTIVITY TWO

Words can also show that we want others to feel comfortable speaking. In your group, take turns saying each of the following statements. Give eye contact to others as you speak. This practice will make it easier to use these encouraging statements in your conversations with others.

- That is interesting.
- You are right!
- I enjoy listening to what you have to say.
- I like that!
- What happened next?
- Can you explain more?
- Please continue.
- Cool

"An acquaintance that begins with a compliment is sure to develop into a real friendship."

Oscar Wilde (1856–1900),
British playwright

NOTES & QUESTIONS

ACTIVITY THREE

In your group, read aloud each of the following quotations. Decide among yourselves what you think the quotation means. Then, talk about how the meaning of the quotation will help you work well with the other students in this class. Remember to practice using encouraging gestures and words with each other.

1. "Courtesy costs nothing."
—Ralph Waldo Emerson (1803–1882), American writer, philosopher
2. "Pleasant words are as a honeycomb, sweet to the soul and health to the bones."
—Bible
3. "You catch more flies with honey than with vinegar."
—Proverb
4. "I hear and I forget. I see and I remember. I do and I understand."
—Chinese proverb
5. "We learn by doing."
—English proverb
6. "The secret of education is respecting the pupil."
—Ralph Waldo Emerson (1803–1882), American poet, philosopher
7. "It is not best that we should all think alike; it is a difference of opinion which makes horse races."
—Mark Twain (1835–1910), American writer, humorist
8. "I am tomorrow, or some future day, what I establish today. I am today what I established yesterday or some previous day."
—James Joyce (1882–1941) Irish novelist

VOCABULARY

Please circle the words that you know. Ask your partner or teacher for the meanings of the other words.

- quotation.....
- proverb
- conversation

- disagree

ACTIVITY FOUR

With the other members in your group, make a list of five or more important rules to follow which will help you have pleasant conversations in this class.

1.
2.
3.
4.
5.

THE CONVERSATION CONTINUES

Take turns reading the following quotations out loud. Pick a favorite.

1. "Conversation means being able to disagree and still continue the conversation."
—Dwight MacDonald (1906–1982), American editor
2. "Speech is civilization itself...It is silence which isolates."
—Thomas Mann (1875–1955), German writer
3. "If it is language that makes us human, one half of language is to listen."
—Jacob Trapp (1899–1992) American religious leader
4. "Argument is the worst form of conversation."
—Jonathon Swift (1667–1745), English writer, satirist
5. "People have one thing in common: they are all different."
—Robert Zend (1929–1985), American writer
6. "Do what you can, with what you have, where you are."
—Theodore Roosevelt (1858–1919), 26th U.S. President
7. "Talk low, talk slow, and don't say too much."
—John Wayne (1907–1979), American actor
8. "Keep it light, bright and polite."
—English proverb
9. "Man's main task in life is to give birth to himself."
—Erich Fromm (1900–1980), psychologist
10. "There is only one beautiful child in the world, and each mother has that one."
—Latin American proverb
11. "Life shrinks or expands in proportion to one's courage."
—Anaïs Nin (1903–1977), French-American author
12. "Man does not speak because he thinks; he thinks because he speaks. Or rather, speaking is no different than thinking: to speak is to think."
—Octavio Paz, (1914–1998), Mexican writer, Nobel Prize winner

ON YOUR OWN

People communicate with words 24 hours a day, seven days a week. During the next 24 hours, please carefully observe people talking to each other .

Note their communication style, gestures, and word choices. You can watch people in stores, on buses, at school and even on TV. Go head, be a spy!

Prepare to share three observations with the class.

1.
2.
3.

**"Accept me as I am—only then
will we discover each other."**

Federico Fellini (1920–1993),
Italian director/screenwriter

Absolutely.
That's true.
I believe that.
That's a good idea.
That's right on target.

I concur.

That's valid.

I accept that.

I support that.

That idea has my vote.
I definitely agree.

I strongly agree.
I couldn't agree more.

You go, girl!

...or disagreement

I don't agree.
Sorry, I disagree.
I can't go along with that.
That's not completely true.
I don't believe that.
That's wrong. What about x, y, or z ?
That's way off base.
That's quite a stretch.
I can't agree.
On the contrary/ I dissent.
That's invalid.
That's not always true.
I reject that.
I can't accept that.
I partly agree.
I can't support that.
I reject that idea.
I have a different idea./I have a better idea.
I beg to differ.
I see things differently.
That doesn't make sense. Is that logical?
That seems simplistic.
I think you are wrong here.
I can't go there!

ACTIVITY

Choose a topic about which you and your conversation partner disagree. Spend five minutes discussing your opinions in a friendly, respectful way. Use some of the phrases at the beginning of this chapter to keep the conversation flowing.

SEEKING CLARIFICATION

Sometimes we need more information. Read each of these phrases aloud to your partner.

So? What do you mean?

Can you rephrase that? Why do you say that?

Can you give another example? Have you considered...?

What if the situation were a bit different? What if...?

Do you think that is the only reason/cause/explanation? How far would you go?

Are you sure? Why are you so sure?

What's your source for that bit of information? How do you know?

Can you imagine some alternatives? Is there another possibility?

TIPS & GENTLE ADVICE FOR ESL/EFL TEACHERS

ESL conversation teachers stimulate conversation in English among their students, help students with English usage, and evaluate student participation, comprehension and pronunciation. These tasks are your main responsibilities. Students learn by doing, and your classroom provides a safe place for them to expand their verbal skills in English.

In order to accomplish these goals, you may use a variety of structures within a class period, depending upon the skill and comfort of your students in using *Compelling Conversations*. For example, you might introduce a lesson topic by discussing one or more of the quotations. Or, you might choose to introduce a topic by examining the vocabulary.

We've often found it helpful, especially in the beginning of the semester, for you to role play for the class a question/answer session with a student. At this time, you could demonstrate how to pass on a question if it makes one uncomfortable. Setting a time limit for the question/answer activity also helps and meets students' desires for structure. In general, each class should begin and end with the class as a single unit even if you have used small groups or conversation partners during the period to build greater class cohesion.

Also, many students stay more on task if they are required to report back to the class or hand in an assignment as a result of the small group or question/answer seg-

ment. While students are engaged in small groups or conversation, you may go from group to group to maintain their focus and encourage or evaluate participation, or you may use this time for one on one practice with individual students. In all these situations, you will be modeling appropriate, authentic conversation for your listeners.

Teachers can use the materials in *Compelling Conversations* in many ways. We've written no direction or suggestion in stone. We hope the materials stimulate interest and creativity in teachers as well in students.

Here are some suggestions for additional activities which have been successfully used in ESL classrooms:

- Start a lesson by selecting a question (e.g. What's your native country? How long did you live there?) and having each student tell his response to the class.
- Ask each student to tell the class a proverb from his country and explain it.
- Select a word with multiple purposes in English (e.g. play) and identify with them the differing definitions of the word. Students can write a sentence for each of the meanings.
- Select a common English word (e.g. play) and help students create a list of rhyming words (e.g. play, say, stay, day, bay etc.) and use the words in sentences.
- Identify a common prefix and help students create a list of words with this prefix.
- Identify a common suffix and help students create a list of words with this suffix.
- Have students create a word search using at least seven of the vocabulary words from a lesson. Students may then exchange these word searches with others in the class.
- Divide the class into groups of three or four and assign a quotation to each group. The group discusses the meaning of the quotation for 10 minutes and then a representative of the group reports back to the class as a whole.
- Pick two quotations with opposing points of view. With the help of students identify the meaning of each quote. Ask students their responses to each quote. Then take a class vote to determine which quotation seems most apt to students.
- Ask students to identify a situation in which they might use a proverb or quotation.
- Have students role play a situation in which they might use a proverb or quotation.

The possibilities remain endless. Build on your successes. Relax and have fun. Remember, the greatest motivators in your classroom remain your encouragement, enthusiasm, and example.

ABOUT THE AUTHORS

ERIC H. ROTH

Born in New York City and raised in Indiana, Eric Roth has taught English and writing in California for the last dozen years.

Roth currently teaches undergraduate engineering students and graduate science students the pleasures of writing and public speaking in English at the University of Southern California.

A freelance writer and former Congressional aide, he has also taught numerous courses at Santa Monica College, UCLA Extension, and Cal State, Long Beach's American Language Institute.

In 1995, Roth taught the first citizenship class in the Santa Monica-Malibu Unified School District and served as the first director of the Community Enhancement Services Adult Education Center in 1996. Several hundred graduates of these courses passed their citizenship exams and became naturalized American citizens.

Roth received his M.A. in Media Studies in 1988 from the New School for Social Research. He is a member of numerous professional organizations, including the International Communication Association, Teaching English to Speakers of Other Languages, and California Association of Teaching English to Speakers of Other Languages. Roth has given several teacher workshops.

Compelling Conversations is the first book by Aberson or Roth. Visit www.compellingconversations.com to offer feedback, suggest conversation topics, or contribute questions, proverbs, or quotations.

As you might guess, he enjoys talking with friends, relatives, students and fellow teachers.

TONI ABERSON

After 35 years of teaching English and supervising English teachers, Toni Aberson (M.A. English; M.A. Psychology and Religion) believes that a lively classroom is the optimal learning environment.

"If people are thinking, sharing, and laughing, then they're learning," notes Aberson. "The mere fact that those adults are in an ESL classroom attests to their courage and their determination to learn."

"Adult ESL students bring a wealth of interesting experiences with them," continues Aberson. "They bring the world into the classroom. The challenge for ESL teachers is to put students at ease and encourage them to practice English. What better way than to ask students about their lives? I love teaching ESL."

P.S. Eric Roth calls Toni "mom."

Perfect for conversation clubs, private tutors, and conversation courses!

"A wonderful source of materials triggering authentic (not stilted) communication."

DR. SHARON MYERS

University of Southern California

"Immigrants need to feel comfortable speaking English, but too often students learn everything except conversation in ESL classrooms. COMPELLING CONVERSATIONS allows students to learn by speaking. It's a wonderful addition to our curriculum."

ZIGMUND VAYS
Founder/President, Community Enhancement Services College

"This book is excellent! Both teachers and students love it."

MARINA GOLDSHTEYN
Director, CES College

"COMPELLING CONVERSATIONS is tremendously useful and interesting. I use it almost everyday in my ESL class. I prefer to use COMPELLING CONVERSATIONS because my advanced students enjoy the variety of choices they have with the number of questions in each chapter."

RONIT FARZAM, M.A.
in Linguistics/TESL. ESL instructor

"I wish I had written this book! It will provide students with hours of conversation practice."

NINA ITO
Coordinator, American Language Institute, California State University, Long Beach and co-author of *The Great Big BINGO Book: Bingo Games for ESL Learner*

"I just wanted you to know that I loved using your book, COMPELLING CONVERSATIONS for my adult ESL student. The proverbs and quotations were a wonderful source of additional conversation, and writing."
